Bekasi, Indonesia | 083804620114 | makbargymnastiar3@gmail.com | [linkedin.com/makbargymnastiar](https://www.linkedin.com/makbargymnastiar)

Summary

I'm a results-driven professional pivoting from the manufacturing industry into tech. To facilitate this career switch, I'm currently completing an intensive backend development bootcamp at Harisenin.com, specializing in JavaScript, Node.js, Mysql, and PostgreSQL.

In this program, I'm actively building a REST API and mastering core backend concepts, from database management to robust application architecture. My previous career taught me the value of discipline, teamwork, and efficiency—skills I am now applying to become a high-impact Backend Developer. My long-term goal is to grow into a senior leadership role within backend engineering.

Work Experience

Production Operator, PT Suryaraya Rubberindo Industries | January 2023 – January 2026.

- Delivered and installed materials to production machines in the tire assembly (main assembly) area in timely manner, ensuring smooth production flow and maintaining workplace safety to avoid accidents.
- Responsible for the tire production process, ensuring quality standards are met and production efficiency is maintained through regular product quality check to ensure results are in line with company standards.
- Ensured every stage of production runs according to procedures, comply with safety standards, and minimize potential accidents.

Production Supply, PT Indonesia Epson Industry | August 2020 – August 2022.

- Ensured the distribution of materials from the warehouse to the production line to maintain a smooth production process.
- Managed the delivery of parts and components between sub-assembly and main assembly to optimize production flow, meet production needs, and minimize delays.
- Coordinated closely with the production and logistics teams to ensure the material supply runs according to production needs without a hitch.

Education

Karya Guna 1 Vocational High School Bekasi

June, 2017 - June, 2020

Electrical Power Installation Engineering

University of Indraprasta PGRI

September, 2021 - Present

Bachelor's Degree in Informatics Engineering

Relevant Courses: Informatics Engineering

Thesis: Revenue Prediction Model for Persija Football Club Match Tickets Using the Naïve Bayes Method

Course, Training, and Certification

Harisenin.com

December, 2024 - May, 2025

Bootcamp in Fullstack Developer

Final Project: Secure CRUD API with JWT Authentication

Relevant Topic: Javascript, Node.js, Express.js, and PostgreSQL

Certificate: tinyurl.com/BackendCert-Harisenin

Expertise

Soft Skills : Responsibility, Teamwork, Accuracy, Time Management, Analysis Skills.

Technical Skills : HTML, CSS, Javascript, Node.js, MySql, PostgreSQL

Languages : Indonesian (Native), English (Beginnner).
